-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because proper language and reference are necessary. The word – comprises –, sounding like claim language, is used in ln. 2. The abstract refers to a hybrid variable rate pipe that is not mentioned in the set of claims or title. Correction is required. See MPEP § 608.01(b).
2. The disclosure is objected to because of the following informalities: The letter – A – is capitalized incorrectly in “In Figure 1a, A stream of traffic ...” in para. [0005], ln. 6.
Appropriate correction is required.

Drawings

3. Figures 1a-e and 2a-b should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2667

5. **Claims 1-39** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claims 1,3,4,10,15,16,17,18,19,20,21,22,23,24,25,27,28,34,39, it is unclear whether 2/3 means "2 or 3" or "2 and 3".

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. **Claims 1,3,25** are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Swinkels et al. (U.S. Pat No. 6,795,394).

With regard to claims 1 and 25, Swinkels discloses

provisioning a non-BLSR protected (bi-directional working paths and protection paths, col. 5, ln. 31; protection path is protecting the working path but not itself) layer 2/3 channel over a BLSR (ring configuration, col. 5, ln. 32; more specifically, BLSR, col. 5, ln. 66);

provisioning a tunnel over the BLSR (all the working paths and protection paths are tunnels); and

protecting the non-BLSR protected (protection path is protecting the working path but not itself) layer 2/3 channel between a first (NE3, Fig. 3) and second (NE4, Fig. 3)

node of the BLSR with the tunnel (nodes NE3 and NE4 are connected by working path and protection path).

With regard to claim 3, Swinkels further discloses provisioning a second (there are more than one pair of working and protection paths, Fig. 3) tunnel on the BLSR, the second tunnel to protect the non-BLSR protected layer 2/3 channel between the first node (N3) and a second node (N4) of the BLSR.

Allowable Subject Matter

8. **Claims 16-24** would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

9. **Claims 2,4-15,26-39** would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Blanche Wong whose telephone number is 571-272-3177. The examiner can normally be reached on Monday through Friday, 830am to 530pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi H Pham can be reached on 571-272-3179. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
